ABOUT US

Ecoboat Botanicals Pvt Ltd is an INNOXAG group of company.

We are partnering with science to develop agro botanical formulations without harming nature.

Our botanical scale based technology allows us to develop the most active and proven products and create superior cultivation compositions that ensure soil and soil efficacy for sustainable agriculture.

Being established among the frontrunners in the Agri-input companies, Ecoboat Botanicals Pvt Ltd stands as a major supplier for a spectrum of Agri-input products catering across domestic and international markets. Its product range spans from Agro biochemical Technical & Formulations to Household and Public Health biochemicals and Fertilizers.

Ecoboat Botanicals serves a healthy, demand-driven global agricultural market. In a world that requires ever-increasing quantities of agricultural products for human food, animal feed, natural fibres and alternative fuels, the key to success is enhanced productivity. Headquartered in New Delhi, Ecoboat Botanicals currently operates in different states of India.

OUR VISION

The vision of ECOBOAT BOTANICALS Pvt Ltd is to create a world where sustainable agriculture is the norm, achieved through our innovative biological & Botanical solutions.

We envision a future where farmers worldwide rely on environmentally friendly products to enhance crop yields, foster soil health, and promote biodiversity.

By leading the way in sustainable farming practices, we aim to contribute to a healthier planet and ensure food security for generations to come.

OUR MISSION

revolutionize agriculture through innovative Botanical solutions that promote sustainable farming practices. We strive to develop and provide environmentally friendly products that enhance crop productivity while minimizing negative impacts on ecosystems and human health. Our ultimate goal is to contribute to a more sustainable and resilient food system for future generations.

FLIBOT

Flibot is made from 100% Organic Extracts. It's give natural power to crops to protect from Downy Mildew, Powdery Mildew, Fungal Bites and Nematodes. Crops get energy for protection for protection from fungal infection by the spray of Funnox. Funnox can recover the loss of crop b fungal infection. It is 100% residue free natural product.

Dose :

1.5 to 2 ml per liter of water and spray on plant till they get drenched if required repeat the dose at an interval of 8 to 10 days.

CLEXX

Clexx origin from organic material which gives protection to plants from fungus and infection. It is create energy in the plant to fight with fungus and plants get more energy to lights with powerdary mildew, downey mildew, krapa and nematodes. It in increase the flowing and decrease the flower dropping. It is helpfulfor fruit setting.

Dose & Application:

1.5 to 2 ml per liter water and spray on plant till they get drenched if required the dose at an interval of 8 to 10 days.

Hansolo

HANSOLO

BOTANICAL VIRUCIDE

Hansolo is made from 100% botanical extracts.
It's give natural power to plant to fight with leaf curl virus

Dose :

1.5 to 2 ml per liter of water and spray on plant till they get drenched if required
repeat the dose at an interval of 8 to 10 days.

Savior

Savior

Botanical Fungicide

Savior is made from 100% botanical extracts.

Savior is a systematic wide spectrum antifungal product. When sprayed on plants it retards fungal spore germination as well as mycelium multiplication. It is highly effective against powdery Mildew, Downy Mildew, blast blight, anthracnose, damping off, fruit rot.

Dose:
2gm/ltr

Innovation

BOTMITE

BOTMITE
BOTANICAL PLANT PROTECTOR

Botmite is 100% Botanical and Ayurvedic Plant Protector product. Noxmite is control trips, mites, aphids, jasides, white fly and larva. It is help to protect the plant. It is micro substant product so it reaches every part of plant. It is 100% residue free organic product. Use Silicon based spreader with this product for best results.

Dose :

1 ml/1 Ltr. of Water

OLAFF

OLAFF
Plant Growth Stimulant

It is recommended for foliar application in all vegetable, fruits, cereals, cotton, oil seeds for stimulative growth, flowering & fruits development thus increasing the yield of crops.

Dose :

2 ml per liter of water

ECODUST

ECODUST

A Unique Combination of Botanical Flora

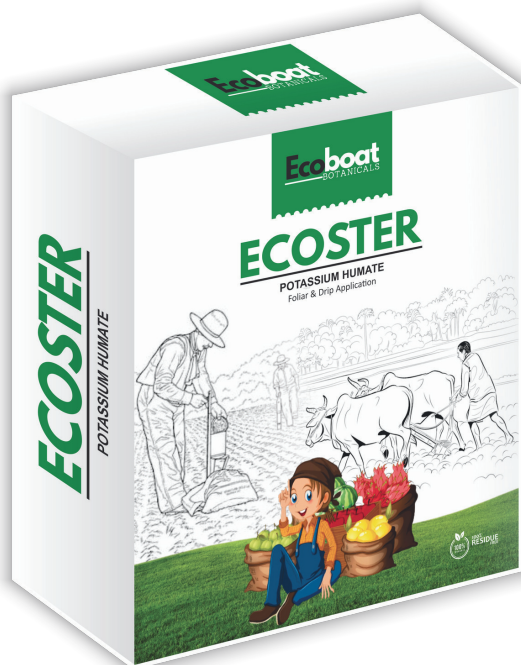

Foliar & Drip Application
(100% Water Soluble)

Benefits

- * It increase the production capacity of the soil.
- * It helpful in the growth of the roots. It increase the growth speed of white roots.
- * It increase the protection capacity of the crop.
- * It provide good amount of nutrients element to the crop.
- * It give the appropriate growth to fruit, size of flower, weight & shine of crop.
- * It help the plant in photosynthesis process and decrease the fallen of flower & fruit.
- * It increase the production quality of the crop and also increase the amount of organic carbon in the soil.
- * It dissolve 98% in the water so we can use drip.

Usage : 1 Kg / Acres

ECOSTER

ECOSTER

POTASSIUM HUMATE

Foliar & Drip Application

Ecoster is a soil activator soil & white root developer. It increase cellular activation at all levels. It increase the quantity & quality of the hair like feeder roots. The natural root stimulating. It is Eco friendly 100% organic & non toxic.

Dose :

500 Gm- 1 kg - 3 gm/ltr for spray

WHY SOIL MATTERS?

Soil is failing across the world: every five seconds a soccer pitch of soil is eroded, and it's estimated that by 2050 around 90 percent of the Earth's soils could be degraded. What does this mean for people and planet, and what can we do to restore a healthy balance to the soil we need to survive?

Ecotech

ECOTECH

A Unique Combination of Botanical Flora

Foliar & Drip Application
(100% Water Soluble)

Benefits

- * It increase the production capacity of the soil.
- * It helpful in the growth of the roots. It increase the growth speed of white roots.
- * It increase the protection capacity of the crop.
- * It provide good amount of nutrients element to the crop.
- * It give the appropriate growth to fruit, size of flower, weight & shine of crop.
- * It help the plant in photosynthesis process and decrease the fallen of flower & fruit.
- * It increase the production quality of the crop and also increase the amount of organic carbon in the soil.
- * It dissolve 98% in the water so we can use drip.

P R O D U C T S

ECOSTER

VIDEL

Botanical plant protector

VIDEL is 100% Botanical and Ayurvedic Plant Protector product. VIDEL is control white fly and green fly. It is help to protect the plant. It is micro substant product so it reaches every part of plant. It is 100% residue free botanical product. Use Silicon based spreader with this product for best results.

Dose: 1.25 ml/ ltr

**Botanical solutions
for sustainable agriculture**

DELLAR

DELLAR

Plant Growth Stimulator

Dellar is recommended for foliar application in all vegetable, fruits, cereals, cotton, oil seeds for stimulative growth, flowering & fruits development thus increasing the growth & Chlorophyll

SHAKE WELL BEFORE USE

USAGE : 1 to 1.5 ml/Ltr

MAVRICK

Mavrick

Botanical Plant Stimulant

Mavrick an advance innovative liquid containing nutrient and proteins with trace element taken from vegetable origin. It is specially flowering booster also fruit boost. It contents sufficient quantity of nutrients. It is also increases plant canopy. It Can be use on flowering stage. It is also increase flowering, fruit size, greenery and growth

Dose :

1 ml per liter of water .

The Future is Botanical Products

ECODROP

Ecodrop is a product which makes use of agriculture inputs scientific. Ecodrop is an all purpose synthetic concentrated adjuvant which enhances the efficiency of pesticides, herbicides, Fungicide, nutrients & organic products in many ways & also keep them in suspension. it increase the wetting power . it improves spreading for better coverage. ecodrop is non corrosive & biodegradable.

Ecoboat -CA

DENETHOR

BOTANICAL PLANT PROTECTOR

Dose: 2 ml / ltr

ECOBOAT-Z

It helps recover the deficiency of micro nutrients in plants.

micro nutrients are the essential nutrients in plants. Micro nutrients are the essential nutrients is essential in the formulation of auxins, which help with growth regulation and stem elongation. It increase plant greenary, chlorophyll and carbohydrates. It is also helpful for growth, flowering and fruit setting. Its also helpful to photosynthesis in plants.

Dose: 2 ml / ltr

Ecoboot -CA

ECOBOAT-B

It helps recover deficiency of Boron. Boron plays a key role in a diverse range of plant functions including cell wall formation and stability, maintenance of structural and functional integrity of biological membranes, movement of sugar or energy into growing parts of plants, and pollination and seed set.

Dose: 2 ml / ltr

ECOBOAT-K

Its recover the deficiency of potash in plants.
It makes plant healthy and strong,
Potash helps flowers and fruit to form and also
toughens growth in order to resist pests and diseases.

Dose: 2 ml / ltr

Ecoboat -CA

ECOBOAT-CA

Its recover the deficiency of calcium in plants.
It makes plant healthy and stress free,
increase plant greenary and chlorophyll.
It also helpful for growth, flowering and fruit setting.

Dose: 2 ml / ltr
